ZEDLOX POWER CHUCKS

Our Power Chucks as well as our Special Chucks are made from high quality forged alloy steel. They have not only a high load carrying capacity and durability, but also a high gripping accuracy and repeatability. All ZEDLOX Power Chuck bodies are carbonized and hardened to 55/60 HRC. The bodies and relevant working parts are finely ground, enabling the final product to be precise with excellent mechanical properties. The result is a rugged chuck with the most effective price/performance ratio in the market. ZEDLOX - Durability you can rely on.

ZEDLOX has a wide range of 3 Jaw Hydraulic Power Chucks from standard chucks to custom-built chucks that can provide solutions to your work-holding problems.
